<ul style="list-style-type: none"> • Very thorough on canvas, hard to be lost in the class. • He was very open and caring to his students. It was really easy to talk to him as a professor. Taking this core class with him make it easy to engage and pay attention. • discussions • Hands on learning and creation of different mediums like websites • BEST CLASS!! Super interesting and helpful • I found the group projects to be very effective during this course, especially the website project. • The course really showed me how to work within a team. The projects allowed me to participate in group work that will be very valuable in many careers. • I really enjoyed the projects we had in this class as I felt it mirrored a work environment that most of us will be in once we graduate. • The readings were helpful, and I liked the group discussions. I liked project 2. • The workshops and projects I found to be very helpful and I enjoyed them. • His feedback was always super helpful, he was always willing to help students and make sure we understand. 	

19 - What aspects of the course and/or Michael Healy's instructional methods could be improved that would enhance your learning? Please give examples. -

Response Rate	10/22 (45.45%)
<ul style="list-style-type: none"> • Nothing, i think he does a fantastic job. • There was a lot to do every single week for this class. The load was a lot. I feel like I got the grade I deserved given how many assignments there were however some seemed to be busy work. • nothing • None!! • I would have liked to spend more time learning how to use HTML and CSS. • One thing that I would have liked to see more is more free writing opportunities. Like for instance I had one class where the way the teacher took attendance was to give us one minute at the end of class to write whatever we wanted and it not only helped him keep track of attendance but also stimulated writing within ourselves. • I think the course would've been better if we had just CRRs or just QCCs rather than both at the same time. Having to do both of them on top of the projects made the course load very heavy and sometimes hard to manage as I took four other classes on top of this one. • The directions are sometimes unclear, and aren't always updated. • I found Professor Healy to be a great and personable professor if you go to class as required. • None he is a great professor

<ul style="list-style-type: none"> • N/A/ • M. Healy is super awesomeeee • Micheal Healy did a very good job at converting to online for the class that is definitely more suited to in person teaching rather than remote. He did all of the changes in a very fair and effective way. • Michael really showed passion for this subject. I appreciate his dedication and effort. • I enjoyed how the projects throughout this course were actually relevant and helpful. • Mr.Healy made this course super interesting, informative and I appreciate him. He is one of the few professors I have met and has stood out due to his kindness and thoughtfulness.
