Response Rate	8/28 (28.57%)
<ul style="list-style-type: none"> • I really liked the special collections visits!! It really helped being able to see these artifacts digitally and having professionals discuss them. I personally think it's almost better than seeing them in person and having to hear the professionals discuss them amongst a crowded room of people, where visual access would perhaps be a bit more limited. Working in groups was also encouraging and made the class seem less overwhelming. • Michael Healy's communication was fantastic. He sent out a lot of announcements and communicated his expectations. I appreciated the long explanations of projects such as the CRR guide and description. • He is a very considerate, kind person. He made Zoom class fun and engaging. • Organization • Professor Healy would read alongside the students which I appreciated because he always was able to participate in the conversation and provide specific guidance for our understanding of the readings. Also, when doing the archive visits, he wanted to ensure that we had fun and tried to make the course more enjoyable overall. This course does not focus on any of my interests so I found it hard to engage sometimes but Professor Healy tried to make it more relevant to each student. • I enjoyed the wide variety of readings that were assigned, especially when they were on topics I had never even considered as a text technology. • The visits with special collections was interesting and helped me understand HOTT better. • Collaborative Work and Group Breakouts. 	

19 - What aspects of the course and/or Michael Healy's instructional methods could be improved that would enhance your learning? Please give examples. -

Response Rate	7/28 (25%)
<ul style="list-style-type: none"> • None • Michael was a good teacher. However, the amount of assignments and the length of Zooms was unnecessary. We could have Zoomed for less time or once a week and gained the same amount of information. Additionally, the amount of work due each day was overwhelming if you had other work/school commitments throughout the days. • We were assigned an excessive amount of reading for a summer course. • less reading • I think there were too many readings assigned. Some days there were two or three readings that covered similar topics and they were typically somewhat long and difficult to read because of the sometimes dry concepts. I found it very difficult to keep up with the readings and would result in me fumbling around in class because of the wide array of subjects covered. I think that reducing the number of readings would create a much more engaging course because the likelihood of students completing all of the readings would be much higher and therefore all students may be able to participate. I am typically a very engaged student who completes all the readings, but I found this course overwhelming difficult to do so. • There was a lot of reading and at times I didn't feel like some of the reading was necessary for the class. I wish we had one reading assigned for a Monday and Tuesday and a second for Wednesday and Thursday. • Start the introduction to the treatise early or split it across the semester with the archive project. I feel like I should've had more time with the treatise because it involves so much work. Also, the treatise should be lighter (work-load wise) during the summer because it was presented so late and so much work is expected in summer sessions already. 	

20 - Please list additional comments and/or suggestions.

Response Rate	2/28 (7.14%)
<ul style="list-style-type: none"> • It was a really great class that was seamlessly adapted to remote learning. He did his best to make the limitations of remote learning almost non-existent. Thanks for a great semester and stay safe! • It is apparent that Professor Healy truly cares about his students and was always very kind and respectful to us.
